Sir:

Submitted herewith is a proposed Certificate of Correction. The Certificate of Correction corrects errors in the stated inventorship to conform the case to the prosecution file history.

On 07/03/2006 the applicants filed a petition to revive; reply to Office Action with RCE; statement of inventors under 37 C.F.R. 1.48(a); signed oaths and declarations by inventors; signed assignments; signed statement of assignee; and various declarations and statements of the originally named inventor and non-named inventor in support of an amendment to inventorship. The papers contained an express request to amend inventorship. The papers satisfied 37 C.F.R. 1.48(a) pertaining to change in inventorship.

On 11/21/2006 the Office granted the petition. On 02/14/2007 the examiner mailed an Office action. The examiner stated, "Applicant's submission filed on 7/3/2006 has been entered. The examiner also withdrew a prior art reference authored by one of the added inventors, based

on the papers submitted under rule 48(a). Thus, the Office clearly accepted the amendment to inventorship. However, the granted patent does not reflect the change in inventors.

The correction puts this claim in the form as originally presented and as subsequently amended, if amended. Therefore, the record makes clear that this correction corrects an error, and that the error is the fault of the PTO. Hence, no fee is required. Applicants respectfully request the Office to issue the Certificate of Correction.

Respectfully submitted,
